

PRESS RELEASE

Councillors also reviewed the final unqualified report for the year from the Internal Auditor.

The Financial Statement indicated that, as a result of careful budgeting and the sound financial management of the Town Council's Accounts during the year, the finances were in a very sound state.

In addressing the meeting, the Chairman of the Policy & Resources Committee drew attention to the final outturn figures which he said had in the main been a result of increased income from some of the Town Council's facilities, together with careful management of the day to day finances by Town Council staff.
