

BEING “UNQUALIFIED” IS A GOOD THING

They were, of course, referring to the external audit of the Town Council’s accounts for 2009/10 which had been given an unqualified (ie a clean bill of health) for yet another year. This meant that the auditors did not find any material fault with the financial management of the Council. Members of the Policy & Resources Committee recorded their appreciation to the Town Council Officers for their prudent management of the Council’s finances and expressed their confidence that this would stand the Council in good stead in what is likely to be a more difficult financial year.
