

PRESS RELEASE

Earley Environmental Group and Maiden Erlegh Residents' Association have formed **EASI** (Earley Adopt a Street Initiative).

If you are fed up with the amount of litter in your street, then you could sign up too! Our Councils cannot possibly deal with the litter problem unaided, so the founders of **EASI** have offered to each keep their own stretch of road clear of litter and you are invited to join them.

The scheme has been running for a little over six weeks, and already over 30 local people have signed up to offer their assistance. Earley Town Council is supplying black bags, litterpickers, gloves and, where requested, yellow waistcoats and Wokingham Borough Council has agreed to pick up rubbish collected with normal household collections.

So if you want to have the satisfaction of looking out onto a clean street, and giving a little pleasure to a lot of people who will see the benefits of your efforts (as well as deterring litterers from dropping the next time) and would like to volunteer to help, call Brian Hackett on 0118 986 1115 or email ask.mera@btinternet.com.
