

THAMES LITTER PICK

Earley Environmental Group and the EASI litter pickers took part in a litter pick along The Thames section in Earley on 22nd September that served as the kick-off event for Earley Town Council's 26 to COP26 campaign. The volunteers were able to amass a huge haul of litter and dumped items. The Mayor of Earley, Cllr. Anne Bassett, joined the group and said, *"It is quite shocking to see how much has been collected in just one morning along this beautiful stretch of the river."* It was a fine, sunny day so there were lots of people walking along the Thames path. It was gratifying that many of them stopped to thank the volunteers for their efforts.
